EXPRESS will be focused on showing skills from Rellika. The skills to be shown will range from Software Engineering, Web Development, Game Design & Development and Graphic Design. The website will also show which web and programming languages (Python, HTML, CSS, Ruby, C++, Java, Javascript, Jquery, etc) Rellika is conversant and fluent with. The platform will also showcase latest Rellika's projects; there will be a link to his GitHub account so prospective employer can see his work. At **Contacts Us** page, users will be able to find his contact details such as email and phone number
